SOCIETY FOR WILDLIFE CONSERVATION, EDUCATION AND RESEARCH

STOP NOT TILL THE GOAL IS ACHIEVED !

-Editorial

As we are moving in another exciting year, we plan to extend our services with some more thematic areas. We plan to extend our services during the wildlife emergencies by establishing Rapid Response Unit (RRU). RRU will include an all terrain vehicle with all the necessary equipment to conduct rescue operations, first aid of the animals, providing veterinary care camp; management, deal man-animal conflict situation and other emergencies including natural disasters etc.

We are looking forward to the support from all the likeminded people and supports and CSR to make this happen.

While, much attention is being given to the conservation of glamorous species like tigers, leopards and elephants, we also need to shift our focus to lesser known species like vultures, pangolin, Great Indian Bustard, Lesser florican and sloth bear etc.

We aim high to achieve our goals in this year and expand our work to conserve the natural heritage of India.

We need your support. Please get ready, will you?

Dr. Bahar S. Baviskar
President, Wild-CER

WORKSHOP ON STANDARDIZING VULTURE CONSERVATION PLAN

Sironcha division of Maharashtra State Forest Department organized a program to develop and standardize the vulture conservation action plan at Kamlapur division, Gadchiroli on 3rd October, 2022. Around 50 front-line staff members were trained and guided on 'Standardizing Vulture conservation plan'. Wild-CER has prepared the vulture conservation action plan for Pench Tiger Reserve, Maharashtra the past and has been involved in the conservation action planning of the endangered species in Central India.

‘TRAINING FOR TRAINERS’ AT JIM CORBETT TIGER RESERVE

Team Wild-CER participated actively in the 'Training of trainers' program organized by Wildlife Trust of India. The training focused on the capacity building of the experts and trainers in wildlife conservation field at IIDL, Delhi. It was scheduled on 11th October, 2022. About 60 conservationists from all over India attended the seminar. Program was aimed towards skill enhancement of trainers for implementation of the conservation activities at ground level.

WORKSHOP ON ONE HEALTH AND VULTURE CONSERVATION

Wildlife Institute of India organized a workshop for Researchers, scientists and conservationists on 11th November, 2022 at Panna Tiger Reserve, Madhya Pradesh

The program illustrated on “One Health Approach” in India. Dr. Bahar Bavsikar, President and wildlife veterinarian, Wild-CER presented his views on one health approach for conservation of endangered species and its future prospects. He also guided on the topic “Status of vulture conservation in India” assisting the Madhya Pradesh Forest Department and Wildlife Institute of India to formulate the Integrated Landscape Management Plan. 20 researchers from all over India participated and the program turned out to be a great success.

“FUN AND LEARN” ADVENTURE CAMP

On 31st December, 2022 Wild-CER conducted a camp at Springs Valley Nature Park, .

In conduce to make nature trail a fun an Adventure camp was organised by Wild-CER team. Around 20 participants enjoyed the program and actively participated in the adventure activities at the camp.

“KIDS FOR TIGERS” - ENVIRONMENTAL LEADERSHIP WORKSHOP

Sanctuary Nature Foundation organized a workshop for school teachers on 26th November, 2022 at St. Xaviers School, Nagpur. Around 40 teachers and staff attended the program. The program was about educational importance of environmental studies and its application. Dr. Bahar Bavsikar, President and wildlife veterinarian, Wild-CER expressed his thoughts regarding role of academic institutions in wildlife conservation. Wild-CER attempts to spread awareness about environmental ecology studies and its importance for school kids.

"WE HAVE MORE TO LEARN FROM ANIMALS THAN ANIMALS TO LEARN FROM US."
